con fascetta e senza.

FIBBIA 266

Prodotta in lamiera stampata, con l'aspetto di una fibbia ottenuta da pressofusione, ma di gran lunga più robusta, è stata la prima ad essere immessa sul mercato allorquando le fibbie tranciate avevano l'aspetto scarno. Particolarmente curato l'aspetto di salvaguardia del cinturino.

È prodotta nelle misure: 6, 8, 10, 12, 14, 16, 18, 20, 22, 25, 30 sia con fascetta che senza.

Materiale impiegato: ferro.
